

PROVIDE INPUT TO EAST COMMERCIAL STREETScape DESIGN!

The Town of Lauderdale-by-the-Sea welcomes the participation of property owners, businesses, and the general public to discuss preliminary designs for the three eastern-most blocks of Commercial Boulevard (the beach to Bougainvillea).

This is not another design workshop or another charrette; we are now in the actual design phase. This is an invitation to see and provide your opinions on alternative landscape and physical design plans.

The Town has hired Jaime Correa Associates to design the project. Jaime and Stephen Fett will lead the discussions. They are professors and practicing urban designers from the team at the University of Miami School of Architecture & Urban Design that guided the community design workshop held in Town in May.

WHEN: SATURDAY, DECEMBER 3, 2011

9:15 a.m. – noon

A 15 minute presentation will be made at 9:15 a.m. and again at 10:30 a.m. The rest of the time will be spent getting your input.

WHERE: 112 East Commercial Blvd. at the southeast corner of Commercial Boulevard and A1A.

The location is convenient for merchants to attend and being right on Commercial Blvd will make it easier to walk the project site and understand the physical implications of each alternative.

Do not miss this opportunity to influence the final design.

For more information, please contact the Town's Public Information Officer at 954-640-4209.
